JEFFRIES IN GOOD FIGHTING TRIM

(By W. W. Naughton.)
Sam Berger, who is traveling the
show route with Jim Jeffries, and
who, it is understood, will be the big
fellow's manager when Jeffries takes
up the gauge of battle again, thinks
that the San Francisco sporting writ-
ers have dealt rather severely with
the retired one.

The writer is one of a number who
received letters from Berger touch-
ing upon the point in question.

In his communication, Sam says:

"From the reports I get from time
to time it is apparent that the press
of San Francisco doubts the sincer-
ity of Jeff's statement that he will
again enter the ring. It seems strange
to me that you should doubt the word
of this fellow, who never in his long
career in the ring has broken faith
with the public."

"If you could see the change in him
physically you would place little cred-
ence in the idea that he is not on
the level. It is impossible for you to
imagine the change that a regular

Receipt That Cures Weak Men—Free

Send Name and Address To-
day—You Can Have It Free
and be Strong and
Vigorous.

I have in my possession a prescrip-
tion for nervous debility, lack of vigor,
weakened manhood, falling memory
and lame back, brought on by ex-
cesses, unnatural drains or the follies
of youth, that has cured so many worn
and nervous men right in their own
homes—without any additional help
or medicine—that I think every man
who wishes to regain his manly pow-
er and virility, quickly and quietly,
should have a copy. So, I have de-
termined to send a copy of the pres-
cription, free of charge, in a plain,
ordinary sealed envelope, to any man
who will write me for it.

This prescription comes from a phy-
sician who has made a special study
of men, and I am convinced it is the
surest-acting combination for the cure
of deficient manhood and vigor-failure
ever put together.

I think I owe it to my fellow man
to send him a copy in confidence, so
that any man anywhere who is weak
and discouraged with repeated fail-
ures may stop struggling himself with
harmful patent medicines, secure
what, I believe, is the quickest-act-
ing, restorative, upbuilding, SPOT-TOUCH-
ING remedy ever devised, and so, cure
himself at home quietly and quickly.

Just drop me a line like this: Dr.
A. E. Robinson, 4120 Luck Bldg., De-
troit, Mich., and I will send you a
copy of this splendid receipt, in a
plain, ordinary sealed envelope, free
of charge.

routine of exercise has made in him.
He works every day after the afternoon
performance for an hour and a half.
You would have to see him in order
to fully appreciate the progress he
has made. He is just arriving at the
stage where he feels eager to don the
mitts, and I have an awful time per-
suading him not to overwork himself.

"No words of mine could impress
you with his intentions to the same
extent that one peek at him would.
There is nobody back here who has
any confidence in him, and I feel
that he is one member of the boxing
fraternity who has earned the re-
spect of the public. Our idea is to
work along until the end of this con-
tract, and then, after that is com-
pleted, we will be prepared to sit down
and talk business for a match with
the black claimant. By the way, have
you noticed how strangely silent he
has become since Jeff has announced
his intention to return?"

Jeff Should Be More Definite.
No, Sam, I cannot say that I noticed
any strange silence on Johnson's part
since Jeff has fallen on the public
since Jeff announced an intention of
fighting the negro some day.

Hyland to Fight Nelson.
On May 29, if all goes well, there
will be a lightweight championship
contest at the offshoot's arena between
Battling Nelson and the fighting Jack
Hyland. In a general way, a victory for
Nelson will be regarded as a foregone
conclusion. This because he is the
champion and has worked his way
to the front by ding-long fighting
against pullists of every known style.

It is manifest, even thus early how-
ever, that Hyland will, in the event
less when he goes against the Danish
crackerjack. Dick is one of your sturdy,
plodding sort, and if there's any-
thing in the theory that many batter-
ings sap a pugman's vim, he will have
one advantage over Nelson at the
starting time.

Hyland is a conscientious trainer,
and he has looked forward to this
thing as the fight of his life. He has
been working quietly for many weeks
and has merged gradually into the
full swing of training.

Nelson on the other hand, has led
an inactive life for many months, and
champion though he may be, it almost
looks as though he is holding his op-
ponent too cheaply.

Nelson will have barely two weeks
of training to put him in shape to de-
fend his title. He claims that this is
sufficient, and he seems to entertain
doubts as to the result of the en-
counter.

Who, remembering how long the
Dane cracked up with Jimmy Britt at
the Auditorium, would prefer to have
seen him devote more time to his pre-
paration for Hyland.

MONTANA ATHLETE MADE DECIDING LEAP

Boston, May 22.—It was not until
O. E. Holdman, of Butte, Mont., cleared
the bar in the pole-vault, against a
northeast rainstorm, that Dartmouth
won the twenty-third annual cham-
pionship meeting of the New England
Intercollegiate Athletic association on
Technology Field today, by a score of
32 1/2 points.

Up to the decisive leaps in the pole-
vault there was a hot fight between
Dartmouth and Massachusetts Insti-
tute of Technology and Williams.

Holdman cleared the highest bar,
while Fenton of Technology, won sec-
ond place for his college, and Captain
George Horrax, of Williams, clinched
third place for his institution.

It was a hot fight for place from
start to finish and the first five col-
leges finished as follows:
Dartmouth, 32 1/2; Technology, 27;
Williams, 24; Bowdoin, 20 1/2; Am-
herst, 17.

The disabling of M. A. Sherman of
Dartmouth in the broad jump yester-
day, eliminated one of Dartmouth's
greatest point scorers and threw the
weight of the competition for the wear-
ers of the green upon J. B. Hawley
and E. R. Palmer.

In taking both the dashes which
Sherman was picked to win, and also
first place in the discus, while Sher-
man's leap in the trials of the broad
jump yesterday were not beaten to-
day, and gave Dartmouth first place
in the discus.

Then came Holdman's
vault and with five first places and a
tor first place in the trials of the broad
jump yesterday were not beaten to-
day, and gave Dartmouth first place
in the discus.

When Europe Shivered.
The winter of 1858 was very mild
in the United States, but particularly
severe in Europe. For the first time
in the nineteenth century the river Po
was frozen over at Ferrara, permitting
for a long time the constant passage
of man and beast. At Constantinople
snow fell constantly for 15 days. The
snow extended to Smyrna, the ad-
jacent districts of Asia Minor, and the
Greek islands were clothed in white.

FIGHT ON LUMBER SCHEDULE BEGUN

Washington, May 22.—After a long
waiting the lumber schedule was to-
day given its final form in the senate.
When the lumber paragraph was
reached, Mr. McCumber presented his
amendment providing for free lumber
instead of \$2 per thousand, as in the
Dingley law, and \$1 as provided by the
house bill. The action precipitated
the long threatened fight and it was
evident, from the beginning, that the
ground would be stubbornly contest-
ed. By agreement reached yesterday,
there was no vote today.

Mr. McCumber led the debate. He
declared the lumber industry needed
no protection. There was, he said, no
doubt that any of the American lum-
ber mills will be closed because of the
foreign competition. The increasing
demand for these forest products tend
to keep up the prices.

Mr. Borah opposed Mr. McCumber's
view that a tariff on lumber would
tend to deplete the forests. "It is in-
credible," he said, "that the human
race is going to perish rather than
plant trees."

Mr. McCumber insisted that the in-
dustry had reached its highest point
in the United States and urged that
free lumber would partly supply the
American market with a product that
could not be supplied from American
forests without exhausting them.

Senator Elkins defended the lumber

interest and accused the senator from
North Dakota of being a "spotted pro-
tectionist" favoring protection on pro-
ducts of his own state, but not on
those of other states.

Exchanging views with Mr. McCum-
ber on the need for protecting every-
thing produced in this country and oc-
casionally appealing to Mr. Aldrich,
Mr. Elkins was interrupted by the sen-
ator from Rhode Island, who asked
apparently jestingly, "with whom he
wanted to make a trade."

"I would rather make it with you,"
said Mr. Elkins, laughingly, and
speaking directly to the Rhode Island
senator, which is contra- to senatorial
etiquette.

"I want to direct the attention," in-
terposed Mr. Bailey, "to the fact that
the principles of protection merely
consist of bargaining."

Mr. Elkins continued that there
could be no protection in spots and
declared he was from the south, a sec-
tion which could not afford to have its

products placed on the free list. He
contended that there was no danger of
the timber supply of the country be-
coming exhausted, but argued that the
lumber industry would suffer disaster
should lumber from Canada come
into the United States free of duty.

Saying he would be satisfied with
a protective tariff of 20 per cent, Mr.
Elkins declared that the farmers of
the northwest had received an in-
crease of 20 per cent over present
rates on their products.

That lumber is only a small per-
centage of material which enters in
the construction of a house was a
contention made by Mr. Elkins, who gave
an instance of a building costing \$4,
564, of which only \$827 was for lum-
ber.

Mr. Scott supplemented the remarks
of his league by an earnest appeal
for a higher duty on lumber and the
restoration of the house rates on briar
wood and briar root which were placed
on the free list in the senate bill.

SUSANVILLE WINS GRAND TOTAL OF EIGHTY POINTS

Reno, Nev., May 22.—Susanville,
California high school athletes over-
whelmed all competitors in an inter-
state athletic meet on Mackay Field
today, winning the meet by a grand
total of 80 points. The nearest com-
petitor was Reno, with a total of 21
points. About 2,000 people saw the
various events. The occasion also
marked the dedicating of Mackay
Field for athletic events.

From the very start, Susanville
loomed up as an easy winner, captur-
ing firsts in nearly every event. Only
four athletes represented the winning
high school. The following were the
points gained by each of the contest-
ants: Susanville, 80; Reno, 21; Win-
nemucca, 8; Goldfield, 7; Tonopah, 1;
Verdi, 1; Carson City, 0; Ely, 0, and
Sparks, 0.

WESTON EXPECTS TO REACH DENVER TONIGHT

Bozoro, May 22.—Edward Payson
Weston, the pedestrian, after sleeping
several hours, left here shortly after
midnight this morning on his walk to
the Pacific. Much refreshed by his
rest, the veteran rapidly covered the
miles during the early hours of the
morning and reached Hugo, Colo., 109
miles east of Denver, about 11 o'clock,
where he stopped for breakfast. As
Weston does not travel Sundays, he
probably will not reach Denver before
tonight.

S.S.S. PURIFIES BAD BLOOD

Bad blood is responsible for most of our ailments, and when from any
cause it becomes infected with impurities, humors or poisons, trouble in some
form is sure to follow. Muddy, sallow complexions, eruptions, pimples, etc.,
show that the blood is infected with unhealthy humors which have changed
it from a pure, fresh stream to a sour, acid fluid, which forces out its
impurities through the pores and glands of the skin. A very common evi-
dence of bad blood is sores and ulcers, which break out on the flesh, often
from a very insignificant bruise, or even scratch or abrasion. If the blood
was healthy the place would heal at once; but being infected with impurities
which are discharged into the wound, irritation and inflammation are set
up, the fibres and tissues are broken, and the sore continues until the
blood is purified of the cause. S. S. S. is Nature's blood-purifier and tonic,
made entirely from roots, herbs and barks. It goes down into the circula-
tion and removes every particle of impurity, humor or poison, restores lost
vitality and steadily tones up the entire system. S. S. S. neutralizes any
excess of acid in the blood, making it pure, fresh and healthy, and perma-
nently cures Eczema, Acne, Tetter, Salt Rheum, Boils, and all other skin
eruptions or diseases. Book on the blood and medical advice free.
